

## **Sunshine Coast Airport returns to normal operations**

Sunshine Coast Airport has announced that normal operations are expected throughout today, Friday.

Airport General Manager Peter Pallot said that after the dreadful weather yesterday, weather conditions are improving and he expects normal operations.

“Our first flight today from Sydney has arrived, so we are back into operations as normal,” Peter Pallot said.

“We want everyone to continue with what they would normally do in flying out of the Sunshine Coast Airport or in meeting someone arriving on a flight,” he said.

“Should anyone wish to double check flight details, they can do so by logging onto the airport website at [www.sunshinecoastairport.com.au](http://www.sunshinecoastairport.com.au).
